EDUCATION

I am presently dedicated to pursuing a Computer Engineering degree at Information Technology University, actively navigating the challenges of my fourth semester. Concurrently, I am honing my skills in front-end web development, particularly specializing in React.js.

SUMMARY

I'm a dynamic Computer Engineering student in my fourth semester, specializing in front-end web development with a focus on React.js. Proficient in HTML, CSS, JavaScript, Material UI, and more, I've applied my skills to projects like React.js powered Learning Management System and a polished client portfolio website. Beyond coding, my versatility shines through projects like a Mall Management System (C++ OOP) and a Facebook-like application (C++ DSA). Excited to bring my passion and adaptability to a dynamic front-end role.

PROJECTS

- FRONT-END OF LEARNING MANAGEMENT SYSTEM (LMS) IN REACT JS

- CLIENT PORTFOLIO WEBSITE IN HTML, CSS, AND JS

- MALL MANAGEMENT SYSTEM IN C++ OOP (TERMINAL BASE)

- FACEBOOK LIKE IN C++ DSA (TERMINAL BASE)
